

## Biiwii Commentary

**eResearch Corporation** is pleased to provide an article and video, courtesy of Biiwii.com, and written by Otto Rock (link to the Author is provided on the following page).

The article, starting on the next page, is entitled: **“Gold at U\$1,321/oz is about as high as it goes, unless...”**.

Biiwii.com was created in mid-2000 solely as a way to help get the message out about deeply-rooted problems about too much debt and leverage within the financial system. The concerns were confirmed and the message proved justified 3 to 4 years later as the system began to purge these distortions, resulting in a climactic washout extending from October, 2008 to March, 2009.

Along the way, a geek-like interest in technical analysis, a long-time interest in human psychology, and various unique macro market ratio indicators were added to the mix, with the result being a financial market newsletter (and dynamic interim updates), Notes From The Rabbit Hole (NFTRH) that combines these attributes to provide a service that is engaged and successful in all market environments by employing risk management first, and opportunity for speculation second.

...TIPS drops soon.

It is not about the dollar, it is about what the dollar can do for you. The less its yield, the more attractive the monetary metal. QED.
