NOTICE OF INTENTION TO SELL eResearch Corporation

In a few months, I will turn 75. It is time to consider real retirement. Already, for the first four months of each year, I am at my townhome in Punta Gorda, Florida.

I am writing this to enquire whether any of my Subscribers, or anyone that any of my Subscribers might know, who might be interested in acquiring **eResearch Corporation**.

The federally-incorporated Company could be purchased:

EITHER: as a “going concern”, in which case, if need be, I would be willing to stay on for an agreed-upon transition period;

OR: for its “non-capital losses for income tax purposes”, which amount to \$524,713.

The Selling Price would be the same under either scenario, and is set at 1/3rd of the stated non-capital losses, or \$174,904, rounded to:

\$175,000

ONE HUNDRED SEVENTY-FIVE THOUSAND DOLLARS

Terms: Cash only
