

Long-Term Perspective

January 19, 2018

Top-Ten Portfolio

We have created a high-quality portfolio of stocks with a focus on growth and attractive yields.

NOTE: The Top-Ten Portfolio has a long-term perspective. As such, we will update it once a week, using Friday's closing prices. Also, it will be essentially a Buy-and-Hold portfolio, with minimal trading involved. The portfolio will always be fully invested.

The initial investment will be a total of \$500,000. To begin with, each of the ten stocks has an equal weighting, meaning the dollar amount of each holding will be approximately \$50,000. If a stock is sold, the replacement stock will begin with the amount of the closing proceeds of the stock sold.

We will conduct a portfolio assessment on a regular basis to determine whether changes should be made.

THIS WEEK'S COMMENT: The portfolio gained a small amount last week, up 0.3%, the same percentage increase for both the S&P/TSX Composite and the S&P/TSX 60 Index. Shopify and Goldcorp lead the pack, and ARC Resources and Algonquin Power are the laggards. No change from last week.

The current portfolio is presented below.
