

Long-Term Perspective

March 29, 2018

Top-Ten Portfolio

We have created a high-quality portfolio of stocks with a focus on growth and attractive yields.

NOTE: The Top-Ten Portfolio has a long-term perspective. As such, we will update it once a week, using Friday's closing prices. Also, it will be essentially a Buy-and-Hold portfolio, with minimal trading involved. The portfolio will always be fully invested.

The initial investment will be a total of \$500,000. To begin with, each of the ten stocks has an equal weighting, meaning the dollar amount of each holding will be approximately \$50,000. If a stock is sold, the replacement stock will begin with the amount of the closing proceeds of the stock sold.

We will conduct a portfolio assessment on a regular basis to determine whether changes should be made.

THIS WEEK'S COMMENT: Some minor improvement this week, but not enough to get excited about. The Portfolio is doing much better than the comparative market indexes (see Graph on Page 3) but only primarily because of exceptional short-term trading gains.

The current portfolio is presented below.
