

Top-Ten Portfolio

We have created a portfolio of stocks with a focus on growth and attractive yields.

NOTE: *The Top-Ten Portfolio has a long-term perspective. As such, we will update it once a week, using Friday's closing prices. Also, it will be essentially a Buy-and-Hold portfolio, with minimal trading involved. The portfolio will always be fully invested, if appropriate.*

The initial investment will be a total of \$500,000. To begin with, each of the ten stocks has an equal weighting, meaning the dollar amount of each holding will be approximately \$50,000. If a stock is sold, the replacement stock will begin with an amount close to \$50,000.

We will conduct a portfolio assessment on a regular basis to determine whether changes should be made. We also utilize "trigger" sell prices as a systematic discipline.

THIS WEEK'S COMMENT: *We took the opportunity to book a profit on the Goldcorp holding when the stock bounced upwards with the announcement that Newmont Mining proposed acquiring the company. At this point, we have not replaced the Goldcorp holding such that the Portfolio currently owns nine stocks. At the present time, all of the stocks in the Portfolio are in the **Black**. However, the Portfolio's overall performance badly underperforms the gain made by the S&P/TSX Composite Index, which has been on a tear since Boxing Day, and directly as a result of the drastic fall in the Maxar share price, since sold.*

The portfolio is presented below.
